DETAILED ACTION

Response to Amendment

1. The declarations filed on June 3, 2003 under 37 CFR 1.131 is sufficient to overcome the Vanderlee ('640) reference.

Specification

2. The disclosure is objected to because of the following informalities:

On page 4, line 20, "electrofustion" should be changed to - - electrofusion - -.

On page 16, line 6, "advantge" should be chanted to - - advantage - -.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claim 30 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Neither the specification nor the drawing describes the feature of the repair apparatus fitting around an electrofusion path already on the pipe to be repaired.
